

BHAVIK PANDYA

Senior Technical Support Specialist | SaaS & LMS Implementation Support | EdTech

+91 9113506151 | pandya.1983@gmail.com | Anand, Gujarat, India | linkedin.com/in/bhavik-pandya-423512149

PROFESSIONAL SUMMARY

Senior Technical Support & Customer Success professional with 13+ years of experience across SaaS, EdTech, HealthTech, IT Services, and startup operations. Experienced in enterprise customer onboarding, technical troubleshooting, API integrations, stakeholder management, QA, and cross-functional collaboration. Alongside my corporate experience, I also provide part-time business operations consulting for a biotechnology startup, managing customer engagement, website administration, business operations, and regulatory coordination. Passionate about leveraging AI to improve customer experience and operational efficiency.

KEY SKILLS

QA & Testing

Manual QA • Course Content Testing • Functional Testing • Pre-launch Verification

AI & Productivity Tools

ChatGPT • Claude • Microsoft Copilot • Prompt Engineering • Microsoft Teams • Zoom • Slack

PROFESSIONAL EXPERIENCE

Technical Support Analyst

Cambridge University Press & Assessment (CogBooks India Pvt. Ltd.) | Remote | Nov 2019 – Aug 2025

Role Overview:

Part of a technical support team serving global enterprise university clients on the CogBooks adaptive learning SaaS platform. Responsibilities spanned client support, onboarding assistance, reporting, and QA.

Day-to-Day Responsibilities:

- Managed inbound support tickets from global university clients through Zendesk — troubleshooting platform issues, integration errors, and user access problems
- Participated in remote client onboarding calls alongside the manager and team — guiding clients through platform setup using structured onboarding guides
- Assisted clients with API and Postman-based integration tasks during onboarding sessions — helping IT administrators configure connections between CogBooks and their LMS
- Used basic SQL queries to extract data, investigate issues, and support reporting tasks
- Prepared course usage and performance reports for individual universities and delivered them via email on a scheduled basis
- Performed manual QA testing on new courses before launch — checking content accuracy, functionality, and platform behaviour across user roles
- Created and maintained support documentation and knowledge base articles to help clients resolve common issues independently
- Collaborated with engineering and product teams to escalate and track bugs, communicate client-reported issues, and confirm fixes

Clients Supported:

Singapore Institute of Technology • Arizona State University • American Psychological Association • and other global universities

Consulting Experience : Biola Solutions,Anand

Business Operations & Customer Success Consultant (Part-time) | Aug 2025 – Present

- Manage customer communication and business development by engaging prospective customers and maintaining relationships with existing clients.
- Coordinate procurement of raw materials, vendor management, inventory planning, and labor arrangements for manufacturing activities.
- Support GST compliance, business documentation, quotations, invoices, and coordination with accountants and regulatory authorities.
- Designed, developed, and currently maintain the company website (biolasolutions.in), including product pages, content updates, and website improvements.
- Manage Amazon product listings and support digital marketing initiatives.
- Prepare presentations, startup documentation, marketing collateral, and business proposals for investors, incubators, and government programs.
- Leverage AI tools including ChatGPT, Claude, and Microsoft Copilot to improve business processes, customer communication, documentation, and content creation.

Consulting Experience : Aarsha Suyog Wellness LLP,Anand
